

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT OF THE HON. T. W. FERRY,
Commissioner of the Soldiers' National Cemetery,
at Gettysburg, Pa.

EXECUTIVE OFFICE,
Lansing, January 16, 1867. }

to the Legislature:

By an act of the Legislature, approved February 3d, 1864, a sum of \$3,500 of the war fund was appropriated "for the purpose of paying the proportion of this State, of the estimated expense of preparing the ground and furnishing the Soldiers' National Cemetery, at Gettysburg, in the State of Pennsylvania, and of making improvements upon that portion thereof which was set apart to this State;" which sum the Governor was authorized to disburse for said purposes.

The Governor was also authorized to appoint a Commissioner, whenever and for such time as he might deem necessary, to superintend the disbursement of said appropriation, and to be in charge of and represent the interest of this State in said cemetery, under his direction and subject to his control. In accordance with this provision, the Hon. T. W. Ferry was appointed, by my predecessor, such commissioner.

By an act of the Legislature, approved March 8th, 1865, the further sum of \$2,500 of said war fund, was appropriated for the purpose of paying the proportion of the expense of this State in completing and keeping in repair said Cemetery.

Of the sums thus appropriated, there have been expended and paid as follows, to wit:

By the approval of my predecessor,.....	\$1,261 82
By my own approval,.....	3,784 54

Total amt paid directly to the Cemetery Association, \$5,046 36

To this must be added as follows, viz:

Paid expenses of A. X. Cary for attending, as Marshal, the laying of the corner-stone of the monument, July 4, 1865,.....	\$79 90
Paid premium for sundry drafts with which to make the necessary remittances,.....	15 76
Total expenditure,.....	\$5,142 02
Leaving an unexpended balance of the appropriation, of	857 98
Amount appropriated,.....	<u>\$6,000 00</u>

By the very full and elaborate report which has been made to me by the Commissioner, dated December 20th, 1866, and which is herewith transmitted, it will be seen that the original design has been faithfully carried out, and the work efficiently executed. Michigan may indeed feel a just pride in the part she has taken in this great and patriotic national work, designed to commemorate the heroic deeds of the noble men who fell upon the ensanguined field of Gettysburg, where the implacable foe of civil liberty and democratic government, invading the soil of a free State, was hurled back with confusion and defeat; where the first grand and decisive victory of loyalty over treason was achieved, and where the foul spirit of secession and slavery met its first grand and overwhelming defeat.

Of the 3,559 bodies which the cemetery contains, 2,580 have been identified, and interred in their respective State lots. The number of Michigan soldiers thus identified, stands third in the list, although in proportion to population this State ranks as first in this great sacrifice.

The Report of the Commissioner not only gives a full and descriptive statement of the character of the work, and of the manner in which the cemetery grounds and the monument have been constructed, with the cost of the same, but includes also a brief history of this great National Cemetery. The Commissioner recommends "that there be transplanted from the soil of

the cemetery, a white pine tree, as a living perennia the State," in which recommendation I concur. tested, by a resolution of the Board of Commissioners, a Commissioner on the Board from this State, the which the Hon. T. W. Ferry was appointed having the 1st day of January, 1867, and which appointment it expedient to make, by virtue of the existing law. any, and if so, what further legislation may be submit to your judgment, but would respectfully that the report of the Commissioner be printed.

HENRY H. CRAPO.

rt of the Commissioner is as follows:

llency, HENRY H. CRAPO,

Governor of the State of Michigan:

incorporating the "Soldiers' National Cemetery," at , Pa., required the classification, by lot, of the ers of the several States, incorporated into three se terms of office respectively should be one, two and Michigan drew the longest term, which expires day of January, A. D. 1867. I have, therefore, the with of submitting my terminating report: in progress, indicated in my last report, has been

ateen acres dedicated to the Cemetery, have been on the north, west and south sides by a substantial l, two feet thick at its base, and tapering outwardly es at the top, with an average height of 4 feet 4 ch, with a surmounting coping of dressed granite, 8 hickness by 23 in width, pointed, cemented, and gether by iron clamps, gives an extreme heighth of 5 division fence, separating the National from "Ever- etery," is of wrought iron rails, supported by cast securely imbedded. A substantial and ornamental with ample gate-ways, fronts and completes the Its pillars bear the names of all the participating

States, with the National emblem conspicuously displayed. Immediately at the right of the entrance stands the gate-house, or keeper's lodge, built of stone, but in my judgment, inadequate to the purpose. I am happy to add, however, that at our recent annual meeting, such modification was directed as will secure a much better adaptation.

Re-interment has been finished. All the graves are uniformly graded. The granite head-stones of equal dimensions—nine inches above ground, with an upper surface width of ten inches, upon which the name and rank of each of the dead, neatly cut and colored to be readily read, form continuous semi-circular lines of granite blocks, broken only by the division walks separating the respective State lots. Additional to this, each State lot has at its front centre a conspicuous slab bearing the State inscription. The lots holding the "unknown" dead are marked by corner stones and tablets, upon which are noted the number buried. It will be remembered that the burial ground is arranged in semi-circular form, in the centre of which is to stand the Monument, with all the State-dividing walks converging to the monumental centre. The main encompassing avenue of the Cemetery has been macadamized to a depth of ten inches, and the foot walks suitably graveled. The surface of the graves and unoccupied grounds are well seeded down, and the growth of grass is to be kept by frequent clipping, of short, uniform height.

Decorative trees and shrubbery have been planted in isolated and clustered disposition, while interspersing lawns, enhancing in their quiet beauty, by spreading and extending growth of trees, will contribute solemnity to the general harmony of landscape effect.

The cemetery contains 3,559 bodies, of which 979 are in the "unknown" lots, and 2,580 identified, are lying in the State lots. Numerically, Michigan stands *third* in the number slain; and proportionably to population she ranks *first* in this sacrifice to be made memorable forever by a nation's gratitude.

The work contemplated is substantially completed, the monument being under contract. Its foundation is already deeply and firmly laid. The corner-stone, with imposing military and civic ceremonies, was formally laid on the national anniversary, July 4th, 1865. It was most gratifying to witness Michigan's interest in this solemn trust, by the personal participation, upon that eventful day, of his Excellency Governor Henry H. Crapo, aided by his Adjutant General, John Robertson, and special marshal, Capt. A. X. Cary. Invitations had been extended, through the commissioners, to the several States to prepare and deposit in the corner stone, such emblematic relics as they might elect. Michigan, it gives me great pleasure to say, was unparalleled in her response. In truth, several of the States, fairly outdone by her, solicited the privilege of adding to what seemed comparatively their meagre contribution.

Our State fairly owes an acknowledgment to your efficient Adjutant General for a large share of merit in the preparation of her creditable deposit. Very fitly may the following initial list of the articles thus deposited be appended, for the inspection of the citizens of a State noted for her lively interest in all the hallowed places and associations of the nation's noble dead:

List of articles deposited by the State of Michigan, in the corner stone of the Monument in the Soldiers' National Cemetery at Gettysburg, July 4th, 1865.

Silver Medallion, with State coat-of-arms on one side, and on the other the number of soldiers furnished by Michigan for the war, (91,193,) with this inscription: "In honor of the (91,193) Michigan Soldiers who aided in perpetuating American Liberty, 1861-1865."

The names, on parchment, of the Michigan officers and soldiers killed at Gettysburg, prepared by Hon. Thomas W. Ferry, Commissioner for the State in the Board of Managers of the Gettysburg National Cemetery.

List, on parchment, of Michigan Regiments, Companies and Batteries, sent to the field during the war.

The act of incorporation contains the following section, to wit:
 "The Board of Commissioners shall have no power to appropriate any of the funds of the corporation, as a compensation for their services as Commissioners." This is construed by the

Board to apply to *expenses* as well; I therefore made a requisition, which was paid, for \$79 70, in favor of Marshal Cary, to cover his expenses attending the laying of the corner-stone, which, together with the requisitions already noted, make an aggregate outlay by the State of \$5,126 06; leaving, of her appropriations, an unexpended balance of \$873 94.

I am the more gratified by the prompt response and favorable exhibit of my State, when, without invidious comparison, it may be stated that the States of New Jersey, Connecticut, Massachusetts, Ohio, Maryland, Indiana, Illinois, Wisconsin and Minnesota, are still in arrears to the amount already exhibited, of \$18,898 14. It is, however, confidently represented that the larger share of this arrearage will yet be provided.

I would recommend that there be transplanted from the soil of Michigan to the cemetery, a white pine tree, as a living perennial emblem of the State.

As comprehensively and briefly as the subject would admit, I have endeavored to sketch the history of this worthy trust, assumed by States, who felt it their special charge thus to consecrate the memory of heroic dead, fallen in behalf of ALL the States of the Republic. Were I to close here, violence would be done to the sad and painful associations which forcibly remind all that death is not confined to battle-fields, however memorable. In the progress of these recounted labors, HE who stood as the civil and military CHIEF of the nation, battling for its life, and through the weary, disheartening years of struggle, never failing, but with courageous heart and confiding purpose, guiding that nation to victory, has fallen a victim to the same treacherous foe that crimsoned a decisive battle-field with the blood of heroic defenders.

Abraham Lincoln is inseparably connected with the solemnities consecrating the National Cemetery at Gettysburg.

Honored by his distinguished presence, his participating words may well become a part of this record, for they can never be too often pondered.

Address of President Lincoln at the consecration of the National Cemetery at Gettysburg, Nov. 19, 1863.

"Four score and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived or dedicated, can long endure. We are met on a great battle-field of that war. We are met to dedicate a portion of it as the final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

"But in a larger sense we cannot consecrate, we cannot hollow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our power to add or detract. The world will little note, nor long remember, what we say here, but it can never forget what they *did* here. It is for us, the living, rather, to be dedicated to the unfinished work that they have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to the cause for which they here gave the last full measure of devotion—that we here highly resolve that the dead shall not have died in vain—that the nation shall, under God, have a new birth of freedom, and that the government of the people, by the people, and for the people, shall not perish from the earth."

Impressed with the measureless national loss, the Board at its next meeting following the assassination of the illustrious President, unanimously adopted the following testimonial of Michigan, and immediately thereafter adjourned in further token of respect:

"Whereas, In the mysterious Providence of God, Abraham Lincoln, late President of the United States, in the full tide of trust and power, has fallen by the hand of an assassin;

"And whereas, The National Cemetery committed to our trust, was by the presence and participation of President Lincoln,

n; therefore,

Resolved, That as a part of the people he loved so well, we
ly mourn the assassination of the able, faithful, pure and
iotic President, whose martyrdom crowns with glory the
y sacrifices offered upon the shrine of a restored nationality,
we utterly condemn the fiendish malignity and complicity
bel leaders, which culminating in Presidential assassination,
ver consigns the great Southern rebellion and its abettors
sting infamy.

Resolved, That to Abraham Lincoln's native good sense,
wd sagacity, exalted humanity, unswerving integrity, his
combination of fixedness with pliancy, simplicity of man-
and purity of purpose, based upon an unshaken faith in the
nate triumph of truth and right, upheld by loyal arms, are
ndebted for the suppression of the rebellion and the deliv-
ice of the nation.

Resolved, That in the emancipation of an oppressed race, he
given efficacy to the principle enunciated in the Declaration
ndependence, proclaiming all races and conditions entitled
fe, liberty and the pursuit of happiness; and history, as it
ares Washington the founder, will enroll Lincoln the savior
ie Republic.

Resolved, That we especially sympathize with the stricken
sehold, made desolate by inconsolable woe.

Resolved, That in respect to the memory of a chief magistrate,
onized in the heart of universal liberty, we do now adjourn."
